DIGITAL PASSPORT STATION

The process to generate government approved ID photos is completed in 3 easy steps

1. POSE

Using the camera and optional LED backdrop you take the perfect photo of your customer

2. PRINT

Using the ID Pro 1 laptop and software quickly check over the customer photo and print. The software will tell you if its perfect! Once printed the image is also automatically uploaded ready to be sent to the GOV site. The customers purchased print will include the approved photo and the details required to submit to the passport office.

3. CLICK & APPLY

The customer simply visits www.Gov.uk and applies for a new passport using the unique code generated and printed on the photo.

ID Photos Pro 8
Secure Cloud Storage

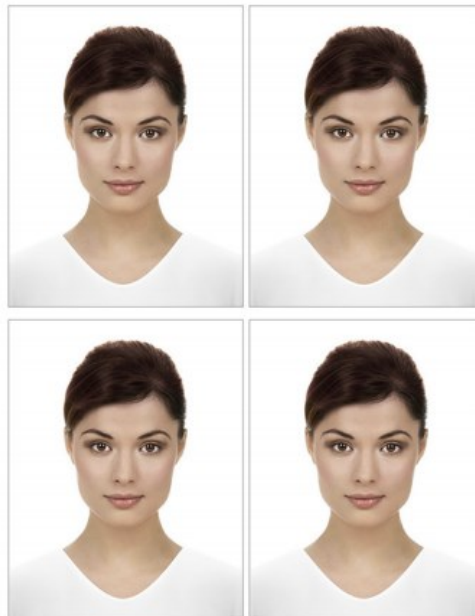

UK Passport Photo
You can apply for a UK Passport online at gov.uk/apply-renew-passport

Photo Code
To access your digital photo when you apply, use this digital photo code:

pxte . eu / eh69jc1t

Capture Date: 20.01.2021
Expiry Date: 20.02.2021

General Data Protection Rules notice.
Your photo has been transferred and secured on a server located in the territory of the UK. It will be stored for 180 days, after which time it will be deleted automatically. Your photo will not be shared or processed by us in any way. Access is restricted to the bearer of the Photo Code.
