

## POD Booths

Introducing a NEW range of iPad Photo Booths

The iPad Photo Booth is a great cost alternative for guests looking to hire a fully inclusive photo booth, and perfect for suppliers who are seeking something to add to their rental portfolio that is quick to set up, easy to use and low maintenance.

### Why buy an iPad Photo Booth?

- Easy to set up
- Easy to transport
- HD Quality Photos
- Can be left unattended
- Minimal space needed

A quick and easy way to supply a booth for events with minimum set up, simply switch on an iPad and insert it into this custom build Booth. A freestanding pod constructed from solid steel. Embedded within the stand is an LED illuminated backlight panel, speaker holes and a circular hole removed for the iPad camera lens.

There is a key accessible panel at the rear to ensure the iPad is stored and secured safely. Guests stand in front of the iPad Photo Booth and use the touch screen of the iPad to initiate the pre-installed booth app. The app uses the iPad camera and sound to provide a fun and interactive experience.

The app is capable of taking single or multiple shots, and once photos have been taken, guests can upload their photos to social media or email. Photos can be printed by connecting the iPad to an optional Wi-Fi printer.

## POD Booths

### ADD YOUR OWN DESIGNS

You can choose from a great range of photo booth borders or easily import your very own designs to add your personal touch. Final images are set to print on standard 6x4 photo paper so you can print directly on the day or after your event.

### BRANDED GRAPHICS

Get your iPad photo booth branded with digital printed graphics.

### SOCIAL SHARING

Send any photographs to yourself via email or post to social media.

### CUSTOMISE PHOTOS

Use the MyPhotobooth app to customise your photos with borders, logos, and personalised messages.

### INSTANT PRINTS

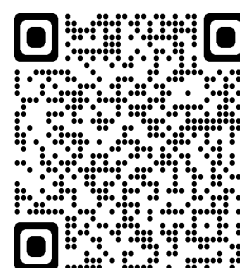

Connect to a Wi-Fi printer (not supplied) to get instant prints for your guests to keep
