

Table Photo Booths

Introducing the Table Selfie™ Touch

The new Table Selfie™, designed, manufactured exclusively in the UK is the latest must have gadget table decoration for any occasion!

The Table Selfie™ can be positioned in the centre of the guest tables to generate instant group selfie photos. Guests can spin the Table Selfie™ 360 degrees to capture the perfect selfie from any angle. Photos can then be saved, shared online, or printed onto customised 6x4" instant prints.

The sleek turntable camera sits at the centre of a table, and guests can connect to the device via their mobile phones. There is space in the middle of the Table Selfie to add other decorations (such as flowers, candles etc)

Spin the Table Selfie to your direction, then trigger the shutter on the in built camera via your mobile device. Once your photo is taken, save the photo, discard the photo, or print the photo locally!

How does the Table Selfie™ work?

The Table Selfie is perfect for any sit down occasion, from weddings to corporate functions, to awards ceremonies. A collection of Table Selfies are placed on multiple tables and connect to a single shared printing station. Each Table Selfie has a central space to allow hosts to incorporate and add their own centrepieces and decorations.

Guests sitting around a table can manually spin the Table Selfie™ around to face their direction, tap the screen to trigger the 3-second countdown and SNAP! They then have the option to save a digital copy to their mobile phone or send to the printing station to collect your instant 6x4" print. What's more – the photos can be branded with a custom border to add a unique personalised touch to your photo!

All photos captured from the Table Selfie™ at a single occasion are stored and can be imported onto a USB so the event host has digital copies of every photo.

- ✓ Add a center piece in the middle of Table Selfie
- ✓ No attendance required
- ✓ Instant prints or social media uploads
- ✓ Built in LEDs to illuminate pictures
- ✓ Works single or in multiple numbers
- ✓ Photos can be branded with templates & messages
